“TECHNOLOGY COMPANY OF THE YEAR” HIRES QUALITY EXPERT:

BELLEFONTE, PA - Piezo Resonance Innovations, Inc. (PRII), the recipient of the 2007 Outstanding Technology Company of the Year Award by the Chamber of Business and Industry of Centre County, has employed a new Director of Quality Control and Regulatory Affairs, Debora L. Demers. Currently, PRII designs custom Innovative Motion™ medical devices for corporate and government partners. PRII’s capabilities will expand to incorporate medical device manufacturing with the assistance of Ms. Demers. She is developing and implementing a comprehensive quality management system. PRII plans to be certified to ISO 13485:2003 and registered with the Food and Drug Administration (FDA) during Spring 2009.

Ms. Demers began her career at a pharmaceutical research and development company in 1987, and now has more than 20 years of quality assurance/regulatory affairs experience. A graduate of Penn State University, where she was awarded a Master’s degree in Workforce Development, Debora is also a candidate for a doctoral degree from Penn State University. She is a member of the American Society for Quality (ASQ) and the Regulatory Affairs Professional Society (RAPS).

Company President and CEO, Maureen L. Mulvihill, Ph.D. commented, “PRII offers innovative solutions to medical product development teams. Our unique design concepts have already been demonstrated in ophthalmology, critical care, and minimally invasive surgery. There is a growing demand for the ability to incorporate Innovative Motion™ capabilities into medical devices. Prior to Debora’s hire we knew that we could also manufacture medical devices in central Pennsylvania. Now with Debora onboard we have the knowhow and expertise to be a leader in medical device manufacturing. I’m pleased to add Debora to our exceptional team.”
